

ENGINE CONTROL PANEL

Mechanical Panel

STANDARD FEATURES

- The mechanical engine control panel comes standard with:
 - Tachometer; 0-3000 RPM
 - Hourmeter
 - Keyswitch; Heavy Duty four position with lockout
 - Oil pressure gauge; 0-80 PSI
 - Engine temperature gauge; 120°F-300°F
 - Engine pre-heat, post-heat, and LED indicator light
 - Isolation mounts; 4 mounts included
 - 30amp panel mounted fuse
- Automatically accepts both 12 volt and 24 volt systems without any additional modifications.
- Would handle engine shutdown solenoid loads without additional relays.
- LED lights indicate alternator failure and first fault for low oil pressure, high engine temperature, low coolant level plus two auxiliary shutdown signals.
- The compact design of panel measures approx. 6.5" x 7.5" x 6.5".
- Powder coated 14ga enclosure ensures durability against most applications and environments.
- Panel operates in temperatures from -30°F to 180°F
- Panel harnesses and powder coated mounting bracket kits and are available that have been designed specifically for each Deutz engine model and for each power unit configuration. A simple plug on the rear of the panel allows the engine harness to be easily installed.
- Backed by Deutz service and warranty.
