MudPuppy 85-2sc

**Pick Up & Clean
150 GPM**

Saves Money

Fast Easy Setup

The MudPuppy sets up in just a few minutes. No settling pit to dig and fill. Only 450 gallons of water needed to get started.

Clean mud means a clean hole.

The Job Site will be Clean and Dry.

Pump, Drill string, and Swivel all last longer with clean mud.

Mix only the amount of mud needed to drill the hole.
